

We are very proud that Wainbridge and The Collection has chosen Technogym as their brand of reference to design a unique guest wellness experience. Our two companies, besides being international leading brands in their different industries, share some important values: personalization, quality and exceptional sense of detail.

At Technogym we work every day to design engaging training experiences based on every single individual passion, aspirations and needs. No matter if you are looking to stay shape, to improve your mobility skills, your athletic performance or you want to follow a health and prevention oriented program, Technogym offers a personalised experience that combines Italian design, digital technologies, services and innovative training contents available across all our connected smart equipment and mobile apps.

Starting from Wainbridge Group ethos and the unique soul of every single property, we have defined a dedicated wellness experiences that combine top of the range Artis Line smart connected equipment and our athletic training oriented Skill Line products fully featured with unique training contents and exercise options.

In line with the ultimate instinctive, engaging and ultra personal approach that makes unique The Collection offer, Technogym's digital innovation enables guests to live a "wellness on the go" bespoke experience: on every single equipment they can connect to their very own training program, data and lifestyle.

Big changes can only happen thorough partnership and we are proud to work with partners like Wainbridge and The Collection committed in spreading wellness culture across the world by combining design, technology and their unique Guest approach.

Let's Move for a Better World
